DIARY NOTES

25X1A

DD/S

[REDACTED]

3 February 1959

25X1A9a

1. I discussed with [REDACTED] the G-2 request to enter two Officers in our Clandestine Intelligence Training Course which lasts twenty-four weeks. They explained that DD/P did not want these people enrolled and, therefore, were proposing to set up a special tutorial course for them. I told them that I felt I must explore this with General Cabell before making a final decision. (I discussed the matter with General Cabell whose reaction was to honor the G-2 request; however, he asked me to raise the matter at the Deputies' Meeting tomorrow.)

I also discussed with them the Training Project at [REDACTED]. They confirmed that the Office of Training would be expected to furnish two instructors on a part-time basis. Inasmuch as this program was set up to run from three to five years. I suggested to [REDACTED] that they should have an Administrative Officer for this Project. FE has now agreed to this and I have asked [REDACTED] to come up with some suggestions.

Bill delivered an OTR paper which responded to Bob Macy's, Bureau of the Budget, questions about permanent construction at [REDACTED] and I have scheduled a meeting with Frank Ecker of the Bureau on this subject at 1430 hours tomorrow.

2. [REDACTED] advised me that 12 or 13 February would be satisfactory for a luncheon with Under Secretary of the Navy William B. Franke. The 13th has been confirmed and the guest list includes, in addition to Mr. Dulles and Mr. Franke, General Cabell, [REDACTED] Mr. Amory, Mr. Bissell, Mr. Lloyd and me.

3. With Gordon Stewart, [REDACTED] and others I met with the [REDACTED] representatives who are doing our Actuarial Study. It would appear that the early retirement formula which we proposed would cost [REDACTED] year over and above our present system. We asked them to make some further refinements in the study before submitting it to us in final form.
